

INSURGENTS ON TOP THE TRAVELERS SAY PASSENGERS FROM HAVANA SAY IT IS SO.

London Club May Offer a Purse For the Corbett-Jackson Fight—In the Negotiations With the Allied Powers the Japanese Take Every Precaution—General Cable News.

Tampa, Fla., May 10.—Passengers arriving on the steamer Mascotte, from Havana, say that the conditions in Cuba are favorable to the insurgents.

London, May 10.—The National sporting club will decide Tuesday whether or not they will offer a purse for the Corbett-Jackson fight.

Washington, May 10.—An official dispatch from Tokio received at the Japanese Legation yesterday says the ratifications of the treaty of peace between Japan and China were exchanged at Che Foo Wednesday. No change was made in the text of the treaty as originally concluded. Taking into account, however, the recommendations made by Russia, Germany and France, the Japanese Government has agreed to renounce the permanent possession of the Liao Tung Peninsula on condition that the arrangement regarding the terms and form of renunciation shall be reserved for judgment between itself and the government of China.

This latter stipulation is construed to mean that Japan will not surrender the peninsula until a suitable indemnity shall have been paid, and that it may have been agreed between Japan and China the possession of Port Arthur itself will be retained by the Japanese for a term of years extending beyond the date when the indemnity has been paid in full, thus assuring to Japan not alone the payment of the indemnity itself but also sufficient time to safeguard itself against anything like a war of reprisal.

The treaty of peace itself provides that Wei-Hai-Wei shall be held until the first 100,000,000 of the indemnity and the next two annual installments have been paid, so with the added guarantee of the possession of Port Arthur, even although only temporary, the Japanese Government would appear to have taken every possible precaution for the future. The foregoing statement is official, coming direct from Tokio by cable. The understanding is it embodies the reply which Japan recently gave to the protest of Russia and the allied powers.

The State Department has published an appendix to the volume of foreign relations of 1894, comprising a history of the Chinese-Japanese war. Our connection in this matter first appears in a dispatch dated June 22, 1894, to United States Minister Sill at Seoul, in which the State Department says: "In view of the friendly interest of the United States in the welfare of Korea and its people, you are, by the direction of the President, instructed to use every possible effort for the preservation of peaceful conditions."

Mr. Sill replied he would do as much as possible in the interest of peace; that neither the Japanese nor Chinese troops would withdraw, although the rebellion had been suppressed by the Koreans; that the Japanese were stubborn; Japan seeming to desire war, and that Korean integrity was menaced. At this point Charles Denby, our representative at Peking, enters the field in a report to Secretary Gresham, describing preparations for war, and saying the action of Japan is criticised there as hasty and unduly bellicose.

July 2 the Korean minister here appeared at the state department and by direction of his government appealed to Secretary Gresham to call a powerful conference to prevent a conflict. Mr. Denby July 8 cabled that Victor Y. Li Hung Chang desired him to telegraph Washington to take the initiative in urging the powers to unite in requesting the Japanese government to withdraw its troops from Korea.

July 2 Secretary Gresham sent a long letter to Ambassador Bayard at London, giving the statement of what had occurred in Washington. He also details an interview he had with the Japanese minister here, in which he informed the minister it would be gratifying to the United States if Japan would deal kindly and fairly with her feeble neighbor (Korea) whose helplessness enlisted our sympathy.

In answer to the appeal of the Chinese minister the secretary replied that a course was open to China which had been adopted by other powers—namely: An offer to settle by friendly arbitration.

October 6 Mr. Goschen, the British charge here, telegraphed from New London to ascertain whether the United States government would join with England, Germany, France, and Russia in intervention on the basis of the guarantee of Korean independence and a war indemnity to Japan, but six days later Secretary Gresham replied that while the President earnestly desired that China and Japan should agree upon terms of peace alike honorable to both and not be humbling to Korea, he could not join the powers in an intervention.

November 23 Mr. Denby cabled an appeal to the President, an appeal by China to do China the great favor to intervene to stop war and re-establish peace. In reply, Mr. Gresham cabled November 26, as follows: "Prompted by that sincere friendship which the United States constantly desires to show toward China the President directs that you intimate his readiness to tender his good offices toward bringing the present war with Japan to a close on terms alike honorable to both nations should be assured that such a tender would be acceptable to both."

Two days later he cabled Mr. Denby that while the President preferred to act alone he would act jointly with other powers, if Japan consented, to determine the amount of indemnity. After some further correspondence, showing that China was anxious to accept our good offices on the terms proposed, Mr. Denby transmits, under date of Nov. 17,

a courteously-worded note from the Japanese government practically declining the offer.

Nov. 17 the Japanese government requests that if China desires to approach Japan upon the subject of peace it shall be done through the United States legation at Peking, to which Secretary Gresham assented. Mr. Denby writes that China received this proposition with pleasure, though he gave it to understand that he proposes to act simply as an intermediary, stating the basis of negotiations and leaving them to arrange the details. The 23d he cabled that China had made through him direct overtures for peace on the basis of Korean independence and a war indemnity.

Some part of the correspondence at this point is devoted to a history of the attempt at a settlement of the war through Mr. Deliring and his rejection by the Japanese on the ground of insufficient credentials and the story of our intervention winds up with the few telegrams from Mr. Denby announcing that Li Hung Chang had been named plenipotentiary and that Japan had agreed to receive him.

GEN. MACEO TRAPS TROOPS.

Leads Spanish Soldiers Into Ambush Where They Are Shot Like Sheep.

New York, May 10.—A special dispatch to the Herald from Key West, Fla., says: "There are rumors in Havana that Salcedo lost 150 men in a recent fight with Gen. Maceo's party. Maceo managed to convey word to the enemy that he had only 200 men. Salcedo went after him with 400 troops. They met the 200 insurgents, who retreated rapidly and led the troops into an ambush, where 1,000 of Maceo's men surrounded them and shot them down like sheep. The troops threw down their arms, broke through the insurgent lines, and escaped, leaving a great number dead upon the field. Salcedo is not at all popular with the rank and file of the army, and his defeat is looked upon with secret satisfaction."

ROSEBERY IS AILING.

His Condition at the National Liberal Club Reception Painful to See.

London, May 10.—It was generally remarked at the reception of the National Liberal club last evening that Lord Rosebery looked pale and wearied. The lapse of memory from which he suffered, causing him to lose the thread of his argument, lasted several minutes, in spite of the fact that he was repeatedly prompted by Earl Spencer and Mr. Campbell-Bannerman. Meanwhile the premier gazed about him in a dazed sort of way that was painful to see. Some ascribe his condition to the use of drugs.

No Reply in Waller Case.

Paris, May 10.—United States Ambassador James B. Eustis has not received a reply to his note to the foreign office here regarding the trial by court-martial and sentence to twenty years' imprisonment of John T. Waller, formerly United States consul at Tamatave. But M. Manotux, the minister for foreign affairs, has promised, upon receipt of the necessary documents from the island of Madagascar, to give the question the fullest consideration.

Jabez Balfour on Trial.

London, May 10.—Jabez Spencer Balfour, the wrecker of the Liberator Building society and other similar enterprises, was arraigned in the Bow street police court this morning for examination.

SLAIN BY FALSE FRIENDS.

Dalton-Doolin Gang Leaders Killed While Asleep by the Dunn Family.

Guthrie, O. T., May 10.—Newcomb, alias "Bitter Creek," and Pierce, alias "Dynamite Dick," leaders of the desperate Dalton-Doolin gang of outlaws, who were killed last week, were betrayed by supposed friends—entrapped into the latter's home and murdered while they slept.

The killing, according to a story of neighbors brought in from Ingalls, was done by the Dunns, who had been promised large rewards by the deputies who claimed later to have made the capture of the famous outlaws. The latter's friends have sworn vengeance, and the Dunn family are arming to protect themselves.

ELECT OFFICERS.

State Federation of Women's Clubs of Iowa Adjourns.

Cedar Rapids, Iowa, May 10.—Particular interest attached itself to election of officers of the Iowa State Federation of Women's Clubs. Mrs. Anna B. Howe of Marshalltown was named as President. The new Vice-President is Mrs. Mary W. Cogswell of Cedar Rapids. The Recording Secretary is Mrs. W. H. Bailey of Des Moines. Mrs. Jessie Mallory Thair of Chariton is the Corresponding Secretary. The Auditor is Mrs. Ada Langworthy Collier of Dubuque. A resolution was passed recommending for consideration the importance of presenting a great petition to the Legislature at its next session for that body to raise age of consent to 18 years, and in furtherance of this design that commissioners must be appointed to cause a petition to be circulated throughout the State soliciting signatures of men and women. The afternoon session was devoted strictly to the new woman, and many eloquent addresses were made. Thus ended the memorable event, the first biennial of the Iowa State Federation of Clubs.

Better Pay for Workmen.

Pittsburg Pa., May 10.—The Amalgamated Association of Tin, Iron and Steel Workers and the Merchant Bar Iron Manufacturers' National association have entered into a combination to secure for the iron workers of the country better rates of wages and for the manufacturers fair competitive conditions against the mill operators of the Pittsburg district, who have been working their employees at low wages.

SHEBOYGAN STRIKE IS NOW AT AN END

MEN RETURN TO THEIR WORK
THIS MORNING.

No Further Trouble Is Anticipated and the Citizens Are Glad to See the Differences Settled—All Is Quiet At Chicago and the A. R. U. Will Take No Part.

Sheboygan, May 10.—[Special]—The big strike came to an end today, and the men who walked out are now going back to their benches. The citizens are all glad to see the trouble ended, and no further complications are expected.

Chicago, May 10.—Quiet prevailed yesterday in South Chicago throughout the scene of the recent disturbances with employees of the Illinois Steel company. Moreover, there is no probability of a sympathetic strike being brought about which will necessitate action by the American Railway union. The local branch of the order at South Chicago will not decide to call out its men on account of the trouble between the striking mill men and the steel company. This was given out with considerable certainty by the president of the local order. He declared that most of the men in the order, which has a membership of 280, are employees in the steel works, but their work is of a higher class than that of the men who have quit work. He says that the order will not have anything to do with the strike, that the members of it have no grievance whatsoever, that they will go back to work just as soon as the mills open again, and that they have no dissatisfaction over the way in which they have been treated by the company. The men who have struck are not members of this local order, No. 512.

Switchmen of the Calumet and Blue Island railway company denied emphatically that the switchmen of that road are intending to go upon a strike. The rumors of a sympathetic strike appear to be entirely unfounded.

In the afternoon the information was given out by Captain Jenkins, in command of the South Chicago police, that just as soon as the Illinois Steel company attempts to place new men in the positions left vacant by the strikers the strikers will attempt again to use force, if necessary, to prevent the new men from taking their places. This fact was made known to Captain Jenkins' detectives, who are traveling in citizens' clothes, and secured the information from the strikers themselves.

To-day possibly will be the critical day of the strike. It is known that the Illinois Steel Company has hired practically no new men and the old ones have been told there is no work for them. It is believed by the strikers that the company will to-day attempt to fill their places and at the same time run in a quantity of pig iron which has been secured in the East. They base this statement on the alleged fact that the company has hired a large number of special police and that the stock of pig iron at present in the yards is too small to suffice the plant for more than half a day.

May Start Another Big Miners' Strike.

Pittsburg, Pa., May 10.—President Cairnes, of the miners in this district, announced yesterday that he would probably call out all the miners in the Pittsburg district inside of a week. He included in this all the mines now paying the union price. He proposes to have the miners camp around the mines of the New York and Cleveland Company at Plum Creek and those of the Pittsburgh and Chicago Company, at Snowden and Finleyville. Mr. Cairnes said: "It has become a matter of national importance to stop the work in the Plum Creek and Snowden mines. They are the stumbling-blocks to a settlement everywhere."

Tanners Strike in Milwaukee.

Milwaukee, Wis., May 10.—Sixty of the beam-house and yard men employed at the Herman Zoehrlant Leather Company's tannery struck for increased wages and yesterday they assembled to induce men at Albert Trostel & Sons' and the William Becker Leather Company tanneries to quit. The latter returned to work later. The proprietors of the tanneries say they cannot increase wages, and although the strike affects only 100 men at present it will likely spread to the 3,800 employed in this city.

Indiana Miners Return to Work.

Shelburn, Ind., May 10.—The miners of Curryville and Star City have notified the operators they would resume work at once on last year's scale. Jacksonhill, Hymera, and Alum Cave will probably return to work when notified by the miners from the other mines. Shelburn will not return to work.

The Difficulty Settled.

Princeton, Ill., May 10.—The differences between the government employees and foremen on the Hennepin canal have been practically settled by a large number of the men resigning.

Molders on a Strike.

Indianapolis, May 10.—All the union molders in this city have struck for a rigid scale of wages of \$2.25 to \$2.50 per day. They are now receiving from \$2 to \$2.40. A recognition of the union is also demanded.

Accept Sixty-Cent Rate.

Massillon, Ohio, May 10.—The miners employed in the Krause mines decided to resume work at the 60-cent rate until the state price per ton has been established.

Representative Hitt Is Improving.

Washington, May 10.—Representative Hitt passed a very comfortable day and his condition was considerably improved when Dr. Johnston called to see him last evening. Secretary Gresham's improvement continues steadily.

DEATHS AT CHICAGO FROM INTENSE HEAT

THE ENTIRE COUNTRY WAS
SWELTERING YESTERDAY

Records Are Broken For the Month of May—The Thermometers Reached Ninety Four at Des Moines—Indianapolis Was Baked, and Many Other Towns Suffer

Chicago, May 10.—Chicago people sweltered under a maximum heat of 90 degrees in the shade yesterday. It was the hottest May day on record. The thermometer began climbing at 7 a. m., when it touched 72 degrees. At noon it was 84 degrees, 2 p. m. 88 degrees, and at 4 p. m. 90 degrees, this being the extreme. There were two prostrations during the day, one of them fatal.

With the exception of an area in the extreme northwest the entire country was sweltering in heat. In Texas and Kansas the extreme of 98 degrees was recorded by the weather bureau thermometers. In Iowa and South Dakota it was 94 degrees. Chicago people staggered along under a maximum of 90 degrees in the shade, while farther east it dropped off to an average of 80 degrees.

AROUND 94 AT DES MOINES.

Extreme Heat Felt in Many Parts of the State of Iowa.

Des Moines, Iowa, May 10.—The heat here yesterday was intense, the thermometer standing for several hours at 94 degrees in the shade. Reports from other points show the heat was general through Iowa. The air was moist and the progress made by crops, following the recent rains, have never been more marked. The grass and grain crops will mature weeks ahead of time if the present favorable weather continues. Corn planting is still in progress, but it is safe to estimate more than two-thirds has been planted. Many fields are up and cultivation is in progress. The hot weather following the ample rains has placed agricultural Iowa in a most prosperous condition.

Breaks a Record of 24 Years.

Indianapolis, Ind., May 10.—Yesterday was the hottest May day in twenty-four years in Indiana according to the records of the weather bureau here. This city was near the center of the hot wave in the central states, the mercury running up to 94 degrees between 2 and 3 o'clock. The atmospheric conditions indicate intermittent thunderstorms but no decided fall of rain, and the hot wave may continue several days. The effect on crops is said to be exhilarating since the rains of the last few days, which, in some parts of Indiana, broke a drought that has continued almost unbroken for months.

Midsummer Arrives Too Early.

Lincoln, Neb., May 10.—Wednesday and yesterday were unprecedentedly hot for the season in the history of the state. Yesterday the mercury at the local government observatory registered 96 deg., while Wednesday the heat was almost an intense. This state has been wet down so copiously during the last two weeks with the exception of two western counties that the heat augments the growth of crops. Reports from different sections of the state indicate the heat has been general and uniform with an absence of storms and hot winds. It was simply midsummer heat a month or two ahead of time.

Reaches Century Mark at Madison.

Madison, Wis., May 10.—Yesterday was the hottest for the season of the state ever known for this time of the year. The thermometer ranged from 96 deg. to 100 deg. in the shade from 11 in the morning until 6 in the afternoon, and what little wind there was came charged with triple extract of Sahara. After the recent copious rains the day brought forth vegetation so fast that one could almost see the plants grow. Reports from Marshallfield tell of one and the dispatches from all over the state indicated an exceedingly warm day, the mercury registering all the way from 60 to 100.

Have a Mild Roast in Kansas.

Atchison, Kas., May 10.—A hot wind is reported blowing in Western Kansas. The thermometer here is at 105 in the shade.

Topeka, Kas., May 10.—During the last two days a hot wave has swept over Kansas that has not been equaled at this season for many years. The thermometer at 2 o'clock yesterday afternoon registered 98 deg. at the government weather bureau, and Wednesday it showed 91 deg. at the same hour.

Killed by Lightning in a Boat.

Duluth, Minn., May 10.—Lightning struck a small boat in the harbor during a sudden storm yesterday and two of the occupants, Charles Emory of Bay City, Mich., and George Barshaw of Duluth, were instantly killed. William Helm of Bay City was slightly stunned, but otherwise unhurt.

Wrecker Gets Four Years.

Lexington, Va., May 10.—Robert K. Goodwin, assistant cashier of the wrecked Bank of Lexington, was found guilty last evening, after a two days' trial, of having made fraudulent entries, and his punishment fixed by the jury at four years in state prison at Richmond. C. W. Irvine, Cashier of the bank, was charged with securing \$54,000 of the bank's funds through overdraft.

Texas Democrats for "Sound Money."

Waco, Tex., May 10.—The "sound money" conference, composed of prominent Democrats from various parts of the State, adopted resolutions declaring for gold as the standard of values and the largest coinage of silver consistent with finance. A division of the Texas Democracy on the silver question is considered unavoidable.

SENATE RECONSIDERS.

Frank H. Cooper of Chicago Allowed to Go Free.

Springfield, Ill., May 10.—The senate yesterday, after adjudging Frank H. Cooper of Chicago guilty of contempt a few days ago, refused to fix his punishment and practically allowed him to go free. Senator Hunter called up the Jones libel bill in the senate. It was read a first time and referred to the committee on judiciary. The same disposition was made of the house bill limiting interest on judgments and decrees to 7 per cent. Senator Berry's bill, enlarging the list of securities in which endowment and other funds held in trust may be invested, passed. Senator Mussett's bill, regulating child labor and appropriating \$20,000 for inspectors, on order of second reading was called up by Senator Dunlap, chairman of the committee on appropriations, who moved that the bill be committed to his committee, as it appropriates money and should be considered by that committee. It was so ordered. The joint resolution, providing for an amendment to the constitution of the state so that proposed amendments to three different articles may be submitted at the same time, was adopted with but four negative votes. The senate bill appropriating \$1,500 for an exhibit at the Cotton States and International exhibition at Atlanta was taken from the table and advanced to its second reading. Senator Merriam moved to reconsider the vote by which the Bogardus bill, making train robbery a capital offense, was defeated. Senator Curley moved to lay Mr. Merriam's motion on the table, but pending the subsequent discussion of this motion the whole matter was postponed one week. Senator Little's bill to repeal the trust law was defeated by a vote of 18 yeas to 18 nays and the introducer gave notice that he would move a reconsideration of the vote by which the bill was defeated. Senator Bogardus' bill, providing that counties shall pay for the treatment of indigent habitual drunkards, passed.

The House spent the morning session and a good part of the afternoon in calling up the revenue bill prepared by the Committee on Revenue. The only change worthy of note made in the bill was an amendment offered by Mr. Needles providing for an annual assessment of real estate instead of an assessment every four years, as contemplated by the bill.

A. P. A. CONVENTION.

Annual Address of the President of the Order.

Milwaukee, Wis., May 10.—The whole of yesterday afternoon's session of the Supreme Council of the A. P. A. was taken up with reading of the annual address of President W. J. H. Traynor. He covered practically every one of the leading questions of the day, except the financial question. He denounced in the most bitter terms the alleged attempts of the Catholic church to control the government of this country. Touching on the question of organized labor Mr. Traynor said his order was unequivocally in favor of organization, but he would have the organization absolutely free from any and all church dictations. One of the most serious obstructions to the success of labor organizations at the present time came from church interference in connection with politics, and the hand of the Romish hierarchy could be too plainly seen in the operations of and results obtained by organized labor. He favored church taxation, woman suffrage, and said the order needed a higher branch to which those who have been thoroughly tried will be eligible. He closed by saying that during the year everything was harmonious in the order.

Dupont Is Senator.

Dover, Del., May 10.—The general assembly of Delaware adjourned sine die at 3 o'clock yesterday afternoon. The republicans assert that their leading candidate for United States senator, Col. Henry A. Dupont, was legally elected. The matter will probably be taken to the United States senate for a decision. The 21st ballot since the deadlock began, four months ago, and the last of the session, was taken a few minutes before 3 o'clock. It resulted: Henry A. Dupont, rep. 15; J. Edward Addicks, rep. 4; Edward Ridgely, dem., 9; Tunnel, dem., 1.

The Y. M. C. A. Convention.

Springfield, Mass., May 10.—The day's work of the International Y. M. C. A. convention opened yesterday at 9:15 o'clock. Prof. Larsen of Minnesota was authorized to convey the greetings of the international convention to the Y. M. C. A. convention to be held in June. A paper on educational work was presented by Frederick B. Pratt. The judges on the educational exhibit have nearly completed their work and have made most of the awards. More than sixty cities have made entries.

John S. Johnson a Professional.

Hartford, Conn., May 10.—The American Cyclist says that Chairman Gideon of the National L. A. W. Racing Board has found John S. Johnson guilty of violation of the amateur racing rules of the League of American Wheelmen and has declared him a professional. Johnson will probably leave for France immediately, where he will join the professional contingent in Paris and henceforth ride for money.

Corbett-Fitzsimmons Fight Off.

Chicago, May 10.—Champion Jim Corbett and Bob Fitzsimmons will never come together for that much-talked-about fight before the Florida Athletic club. More than that, they will probably never fight at all. Both of them declared last night that there was no chance at all of their having a battle in Florida, and both admitted that it would be hard to get them together anywhere else.

Samoa Rebels Are Still Defiant.

Apia, Samoa, April 24, via San Francisco, Cal., May 10.—The rebels are still defiant, but show no signs of making an attack on the government. Fire in Apia, April 2, caused a loss of \$100,000. Business is badly depressed.

MEDFORD IS SWEEPED BY A HOWLING GALE

CYCLONE DID GREAT DAMAGE
LAST NIGHT.

Financial Loss Will Reach Fifteen Thousand Dollars But No One Was Fatally Injured—List of the Principal Losers—Young Forger Sent to Waupun.

Medford, Wis., May 10.—[Special]—Medford was swept by a cyclone last night, and damage to the amount of \$15,000 was done, although luckily, no one was dangerously injured. The storm was a terrific one and cut a wide swath through the town. The principal losers were:

German Lutheran church—steeple shattered and main building severely damaged.

Maurer's bakery—building and contents entirely ruined.

Dunklee Brothers, cigar factory—building and contents both severely damaged.

Shapiro's dry goods store building damaged and store more or less injured.

Hotel Winchester—partially wrecked, the damage being extensive.

Much glass was broken by the gale and minor damage, such as the uprooting of trees and leveling of chimneys, out-buildings, etc., was quite general. The storm did not last long but was severe while it raged.

Sensation at Chicago.

Chicago, May 11.—Frauds of the grossest nature in the pay rolls of the department of public works are said to have been uncovered by Commissioner Kent. Prosecutions of a startling nature are threatened, involving, as they will, not alone the duped laborer, ignorant of his rights or the law, but late public officials who connived at this form of plundering the public treasury. It is moderately estimated at the city hall yesterday that a million dollars had been stolen from the city in this manner by officials of different grades.

Trial Takes a Dramatic Turn.

Indianapolis, Ind., May 10.—There was a sensational turn yesterday in the trial of William M. Copeland for shooting his brother-in-law, William H. Bruning, a year ago in this city. It is alleged Bruning had been persecuting his sister in the effort to get her estate. Mr. Spann declared the defense would show Bruning had attempted to poison his sister two years after the death of their father in 1839.

Damage to Fruit in California.

San Francisco, Cal., May 10.—A wind storm beginning at midnight Wednesday swept over the northern part of the state, doing much damage in the fruit section. Traffic is suspended on the railroad between Sacramento and Davisville. A vast sea of water overflows the Tule lands. A similar state of affairs exists on the railroads in the Feather river district, between Knight's Landing and Chandler Station.

Iowa G. A. R. Encampment Ended.

Clinton, Iowa, May 10.—The twenty-first annual encampment of the Iowa G. A. R. closed last night with a joint installation of the department and Woman's Relief corps officers, followed by presentation of testimonial to Past Department Commander Phil Schaller by Judge F. C. Granger, and presentation of honor to W. R. C. State President Mrs. E. Flora Evans by Chief Aid Mrs. Hattie E. Kinch.

Freight Train Wreck at Muncie.

Muncie, Ind., May 10.—A Chicago limited meat train was wrecked twelve miles east of here on the Big Four road yesterday by the rails splitting when the train was running fifty miles an hour. Sixteen loaded refrigerator cars were smashed into splinters. The engine passed over in safety and the caboose held the track. One of the seven tramps on the train was killed.

Chickasaws May Fight.

Denison, Tex., May 10.—The national courts convened yesterday at Tishomingo, the capital of the Chickasaw nation. A serious state of affairs exists, which may precipitate a civil war. There are two sets of officers throughout, from judge down, and a clash seems certain, as each side is obstinate. The factions are heavily armed. A single shot fired means a battle. The governor's offers of mediation have been rejected.

POSITION OF THE STARS IN MAY

Interesting Astronomical Data Given Out by Washington Observatory.

Interesting astronomical data for May are furnished by the Washburn observatory. Mercury passes superior conjunction May 4 and will be favorably situated at the end of the month for visibility as an evening star. Venus is an evening star, and is still increasing its apparent distance from the sun. May 18 Venus overtakes Jupiter, passing within about two degrees of the latter planet. Mars is also in the western sky in the evening, somewhat higher than Venus and Jupiter. Saturn is in the southeastern sky, and crosses the meridian late in the evening.

The times of the moon's phases are: First quarter, May 1, at 9:44 p. m.; full moon, May 8, at 5:59 p. m.; third quarter, May 16, at 11:44 a. m.; new moon, May 24, at 6:46 a. m.; first quarter, May 31, at 2:48 a. m.

The principal fixed stars visible during the month in the evening hours are: To the west, Capella, Castor and Pollux, Procyon and Regulus; to the east, Spica, Arcturus and the Northern Crown.

DANDELIONS PLENTY THIS YEAR.

The Yellow Flowered Pests Are the Bane of Lawn Keepers.

The magnificent proportions of this year's dandelion crop have been a subject of comment this spring. For a number of years the yellow-flowered nuisance has been spreading until now lawns can be found which are entirely given over to the weed. The ordinary method of cutting out below the surface of the ground simply adds vigor to and multiplies the number of shoots from the root. To keep them mowed seems to afford them a better chance to spread their long leaves over a greater area of lawn, and the blossoms cut off fall beside the parent plant and the seeds mature and fall into the ground to bring forth "fruit a hundred fold." Between the plantain, burdock, wild lettuce, dandelion and drouth, existence is made an unnecessary burden if a householder has any other purpose in life than keeping a presentable lawn.

PARAGRAPHS FOR THE LEAF MEN

THE growers are everywhere busy with their farm work with no time to talk about selling tobacco at less than cost of production and the buyers show little disposition to trouble them.

A SERIES of soaking rains have fallen during the week putting the soil in splendid condition and crowding the young plants along at a tremendous rate.

THE dealings in cured leaf partake of the same dullness here that prevails in the eastern markets.

THE home market is as barren of transactions this week, as at any time in the past six months.

THE outlook now is for an unusually early planting season—the first requisite towards a good crop.

SOME new tobacco is still moving at Janesville under similar conditions as noted before.

IN some sections the plants are already nearly large enough for setting.

RACE ROWS SETTLED BY APPEAL BOARD

FOND DU LAC FINED FOR TAK-
ING CONDITIONAL ENTRIES

Case Is That Where H. D. McKinney, J. C. Chadwick and Others Were Held Back By the Debs Strike—Frank L. Smith's Protest Against Baker Boy's Race Sustained.

Conditional entries received a severe blow at the hands of the board of appeals of the American Trotting Association Wednesday. In a case that came before the board last December, the Fond du Lac Kite Track Association was sustained in collecting entrance money from H. D. McKinney and John C. Chadwick of this city; George W. Spear and Frank G. Loomis of Minneapolis, and other drivers who were unable to reach the Fond du Lac meeting on account of the railroad strike. The fact that the horsemen claimed that their entries had been accepted with the condition that the strike would not interfere did not let them out of paying the obligation, as the board has uniformly held that no conditions are valid except such as are published by the association. The Fond du Lac Association, however, was cited to appear, at the session now in progress and show reason why it should not be penalized for accepting conditional entries. The case came up yesterday afternoon, and the evidence showing conclusively that the entries of Frank Loomis had been irregular, the board in executive session imposed a fine of \$250 upon the Wisconsin association. A blade that cuts both ways, as in this case, can be relied upon to render the conditional entry evil a dangerous plaything, both for horsemen and secretaries.

Another matter that will interest Janesville people was case number 1235—Frank L. Smith, Janesville, Wis., vs. David Johnson, Jefferson, Wis., vs. Roys Brothers, Columbus, Wis., J. M. Flowers, Oconomowoc, Wis., b. h. Zantur and br. h. Baker Boy. Protested first and second monies in 2:35 class at Jefferson, Wis., October 4, 1894. Protest is made on the ground that neither of the horses Zantur or Baker Boy were properly entered in the 2:35 class at Jefferson, Wis., October 4, 1894. The evidence showed that the horse Baker Boy was originally entered in the 2:48 class, but that in pursuance of a condition which was published in the original pamphlet issued by the society, but not in the published programme of the speed ring; he was allowed to compete in the 2:35 class as the 2:48 class, and did not fill. He was protested and performed under protest. Evidence also showed that the horse Zantur was not properly entered on the day the entries closed, and that the name of neither horse was included in the publication of entries in the 2:35 race. Ordered: That the protest be sustained, and the money re-distributed, under the rules, so far as the other horses placed in the race are shown to be eligible, and that the balance of the money involved be deposited in the trust fund until the December, 1895 meeting of the board, and that the members at Jefferson, Wis., be cited to appear at said meeting and show cause why they should not be ordered to pay second money to the owner of the br. m. Baker Boy.

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN
THE CONTEST.

Five Shares of Stock in the Rock County Building, Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.
It will buy a building lot.
It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

An athletic caper of this sort would scarcely be considered indecorous in one, even of mature age and sedate habits, impelled thereto by excess of joy on recovering his digestion through the instrumentality of Hostetter's Stomach Bitters, foremost among remedies for dyspepsia, biliousness and constipation, a trio of evils usually found in conjunction with each other. As the stomach recovers its tone, and the gastric juices are secreted in healthful plenitude through the agency of this superb restorative, nerve tranquillity, appetite and sleep return, the body gains in substance and the muscles in vigor. For the prevention and cure of malarious, rheumatic and kidney trouble the Bitters is a most direct and thoroughgoing medicinal agent. Its effects are speedily felt and comprehensive.

A Chain of Persecution.

George—No matter how things go, the poor always suffer.

Jack—Yes, the nabobs who own railroads think nothing of running over a poor man's horse.

"Yes, and the man who can afford to own a horse runs down a poor fellow on a bicycle."

"Just so. And the poor fellow on the bicycle runs down the poor fellow who has to walk."

"That's it. And the man who walks stumbles against the cripple who goes on crutches."

"That's the way. And the cripple on crutches spends most of his time jamming his sticks down on other people's corns. It's really a selfish world."—N. Y. Clipper.

A Hunting Item.

Usually a hunter manages to kill something. Jinks is a great hunter, but he never kills anything. Recently while out hunting, a rabbit sprang up near the corner of a fence. Instead of firing he merely raised his hat.

"What do you mean by taking off your hat instead of shooting at him?" asked his companion.

"You see, I've shot at that rabbit so often and missed him that we are old acquaintances," replied Jinks.—Texas Siftings.

Demands of the Season.

In the spring, a deeper crimson Comes upon the robin's breast;

In the spring, the wanton lapwing Gets himself another nest;

In the spring the balmy zephyr Whispers through the leafy pine;

In the spring our torpid livers Call for blue pills and quinine.

"I have a dear little babe, and am well. I thank Mrs. Pinkham for this, and so could other motherless women. I was a victim of Female troubles. Lydia E. Pinkham's Vegetable Compound cured me."—

HYPNOTISM

That hypnotism is rapidly gaining ground as a science in the practice of medicine, is generally recognized; and that it would advance still more rapidly but for prejudice and a nonsensical dogma known as a "code of ethics," is a fact that can not be controverted. The Chicago Tribune in a recent issue contained an interesting account of the treatment of Mrs. Andrew O. Sodergreen, of No. 6843 Washburn avenue. For months the lady had been dying of nervous prostration as the result of grip. She employed one after another, without finding relief, four reputable physicians, the last being Dr. George F. Washburn, No. 3497 Drexell boulevard. Dr. Washburn took charge of the case about the first of March, at the end of the month she grew weaker and he was unable to relieve her suffering. She was unable to sleep or even lie down. The doctor told her very candidly that he could do nothing more for her. In speaking to a friend one day, Dr. Washburn told of the slow death that was coming upon Mrs. Sodergreen, and that she was beyond help unless possibly by hypnotic treatment. His friend, Charles A. Whitacre, of the firm of Lobbell, Farwell & Co., asked the doctor why he did not resort to hypnotism. Dr. Washburn, said that he knew of no reputable physician who was using it. Mr. Whitacre told him that he had a tenant, a regular practitioner, Dr. G. E. Silver, No. 67 Twenty-third street, who was using the science in certain cases with marked success. The two gentlemen visited Dr. Silver's office and after the case was fully stated the two physicians visited the patient, with the understanding that if she yielded to hypnotic treatments that all medicine should be taken away from her, and Dr. Silver would assist in the case. On the pretense of examining her eyes, she was placed under hypnotic influence and dropped into a quiet sleep. Dr. Silver then said that he would take the case, the lady was awakened, much surprised at the treatment. She was told that at 9 o'clock she would go to sleep and rest well. The result was that for the next three nights she went to bed and slept soundly, a thing that she had not done for months. The two physicians visited her every day, and she improved rapidly. In less than ten days she was able to take care of her own room, and in two weeks she was pronounced cured. Dr. Silver was very modest about it, and says that nature effected the cure. He simply gave her rest, which medicine failed to do. Dr. Washburn was entitled to all the credit, for employing hypnotic science when other remedies failed. Dr. Washburn refused to discuss the case, on the hide-bound and nonsensical plea that if his name was connected with it, he would be called a crank.

It is about time that this sort of nonsense was forever dismissed from the minds of intelligent physicians. Human life is altogether too important to be weighed in a balance against ethics. Every family is more interested in saving the life of a friend or relative than in encouraging the whim of a physician. If hypnotism or any other ism possesses merit, in the name of humanity endorse it. The silent cities are crowded with people who should have lived out their allotted time. Lack of knowledge and proper treatment, combined with prejudice that borders on criminality is responsible to a large degree.

A good deal is being said about the act of 1873 and various other acts pertaining to silver coinage and value. The facts of 1895 are of much more importance to the country than the acts of 1873, or any other year. One of the most stubborn of these facts is that the silver bullion in the American dollar is worth less today than fifty cents in this or any other market.

Thousands of people are flying from Odessa, the commercial center of

Russia, because of a prediction that the city is to be destroyed by an earthquake.

It's not hard to sell shoes when you have the kind that satisfy the people. All we have to do is to try them on and the sale is made. It's useless to try elsewhere and the people know it, so they decide at once. Fifty cents on the dollar is quite a feature. Becker & Woodruff.

It pays to go direct to a factory to buy a buggy, as there a better price can be had than often is quoted by dealers. The kind of buggies the Wisconsin Carriage Top Co. turn out is much sought after, and a buyer never regrets to purchase. Wisconsin Carriage Top Co.

A BIG house is assured Thatcher & Johnson tonight.

Gilmore's Auditorium.

A crowded house greeted Thatcher and Johnson's Minstrels at Gilmore's Auditorium last night and the novel and excellent entertainment was heartily enjoyed.

The company is an unusually strong one, being made up of the best material in the profession, while the program is simply delightful, consisting as it does of gilt-edged minstrelsy and sparkling vaudeville combined in the happiest and most taking manner.

When the curtain rose on the beautiful first act there was a hum of admiration, followed by loud applause. The scene represented the Royal Hunt Club Palace and was a marvel of significance and good taste, the effect of which was enhanced by the employment of a large number of different colored lights.

The set was especially designed and constructed for Thatcher & Johnson's minstrels, at an expense of \$5,000, and it is safe to say, has never been equaled by any heretofore displayed minstrel first-part scene. Philadelphia Item. At the Grand tonight.

Bought Another Stock.

For the past 3 days, E. W. Lowell, the hustler and slayer of high prices, has been absent from town, and until last evening it was not known where he was. He returned last evening wearing a smile that reached almost from the depot to his place of business up town, and it was all caused from the fact that he had bought the Biglow & Donahy stock of general hardware at Aurora, Ill. The stock is one of the finest that ever graced a hardware store and will be a credit to Janesville. It will be packed and shipped here next Monday and then you can buy hardware at your own price again; thanks to Lowell Hardware Co.

There was a large delegation from Whitewater Circle present, who were all highly pleased with the manner in which the Bower City Patriarchs exemplified the work of the order. Besides the regular work of the circle, the following officers were duly installed for the ensuing term:

CROOKS ARE SHOVING THE QUEER Men Work Counterfeit Silver Dollars in Making Change.

For several weeks past a number of sharpers have been circulating counterfeit silver dollars in many cities of this state. They have been in Janesville but it is not known that they got rid of any of the coin. Their scheme was to enter a place of business, produce ten silver dollars and ask the proprietor or clerk, as the case may be, for a ten dollar bill. Among the silver there was sure to be three and possibly five bad silver dollars.

It makes us sweat these days, never sit down, only when we eat, and that is not all. We are enjoying the shoe trade of a life time and all because we are selling the best makes of shoes in the world at 50 cents on the dollar. Becker & Woodruff.

GAY MRS. SHELDON FOOLED THEM ALL

SEWING MACHINE AGENT WAS FAIR BUT FALSE.

Half a Dozen Merchants Are Out For Goods Furnished Her and She Has Tripped Lightly Away—Insurance Man's Man's Checks Unpaid—Why the Tramps Don't Stop Here.

When Mrs. J. M. Sheldon left Janesville the other day, she had the hackman take her from her South Main street home to the St. Paul depot, by way of the Jackson street bridge.

When she shipped her household goods, she had the teamster haul them to Beloit and send them from that station.

That is why some Janesville people swear. They wanted her and her goods, too.

Mrs. Sheldon was fair to look upon, and thirty years old, but false at heart. She came to Janesville several weeks ago, and claimed to be an agent for the Singer Sewing Machine Company, saying her home was at Waukegan, Ill. She rented a house at 285 South Main street of John S. Anderson, the real estate man, and began to rent bills. A young man of twenty-five years' experience, who passed as her son resided with her and they kept a high stepping horse. Everything went well for awhile and then the merchants began to want money.

But they didn't get it. When they asked for cash she agreed to "step in next week" but next week never came. The next chapter came when the police were appealed to and the merchants went to levy on her goods and found that she had gone. Since then Chief Acheson has received notices from other places telling of her misdeeds. The local losers as far as reported are:

Janesville Coal Company—fuel. David Brown—feed. A. C. Munger—groceries. S. Henderson—meat. J. S. Anderson—rent.

Insurance Agent Goss. A number of Janesville business men are anxious to know the whereabouts of an insurance agent who left the city last Monday to go to Rockford, leaving in their hands a number of bank checks. The business men have found that the bank is not inclined to cash the checks until the agent makes a deposit sufficient to cover the amounts. Parties holding the checks, and there are a number of them, are keeping very quiet, believing that in so doing they will be able to find their man and recover the money they gave him in exchange for the paper bearing his autograph.

Why Tramps Don't Stop Here Tramps may cause the Janesville police to earn their salaries by the sweat of their brows, but they are not bothering housewives very much because they do not get a chance. Large numbers of the hoboes pass through on the freight trains, but they do not stop. Usually there is a short, stocky man, with a bright yellow cane, on one side of the train, while on the other side there stands a tall, broad-shouldered man with a similar stick. The two gentlemen compose the firm of Acheson & Hogan, tramp trimmers, bum busters and hobo humblers. When the train stops the firm dally carelessly with the "hickory uniform" and as a usual thing the Coxeyites either crawl further under the trucks or else shut the box car down with a bang and bolt them on the inside. That's why the tramps do not bother the residents; there's an element of danger in it. Patrolman Hogan came down Milwaukee street this morning about 10 o'clock, wringing the perspiration from his handkerchief, and said:

Many go through "There are a good many tramps moving along the line all the time, but we keep pretty close watch of them and hustle them out about as fast as they arrive. So far we have had no trouble to speak of. They do not stop here," he continued modestly, "and in my opinion they prefer a point further south, near some large city."

The latest class of law breakers with which the police are called upon to deal, is the bicycle thief. Chief Acheson has received a number of notices within a day or two, asking him to keep on the lookout for some of these gentlemen who are thought to be headed this way. The wheels in question were stolen at Delavan, Monticello, Elkhorn and Lake Geneva, and were mostly taken from the front of houses while the owners were inside. About the only way of identifying the machines is by the number, each wheel being stamped with a number of its own.

BEYOND ALL EARTHLY WOES. Funeral of Morris Ensign.

The remains of Morris Ensign were buried in Oak Hill this afternoon. Funeral services conducted by Rev. Victor E. Southworth of All Souls church, were held at the home of Mrs. H. R. Johnson, 215 Terrace street, at 2:30 o'clock, there being a large attendance. At the conclusion of the services at the home the remains were taken to Oak for interment.

Funeral of D. J. Donovan. The remains of Dennis J. Donovan arrived from Chicago on the 12:30 train this afternoon, and were met at the depot by a number of former Janesville friends. The funeral party from Chicago was quite large, there being about thirty people in the delegation. From the depot the remains were taken to St. Mary's church,

where the funeral services were held at 1 o'clock, Rev. R. J. Roche officiating. At the conclusion of the services the remains were taken to Mount Olivet for interment, the pall bearers being Edward McCue, Thomas Abbott, Con. McGinley, Michael McCue, William O'Grady and Thomas Clark. A full backload of flowers were brought by the party from Chicago, which was as follows: Mrs. Jerry Donovan, J. D. Long, wife and daughter Miss Mary, Miss Margaret Donovan, Miss Mary Donovan, Miss Nora Donovan, William Donovan, P. Dooley and wife, Miss Morgan, William Morgan, George Gilman, Mrs. John Donovan, Henry Myers, Mrs. Herman Morgan, James Lamox, Charles Lamox, William Donahoe, Miss Donahoe, John F. Long, Dennis Long, Fred Hendrick, Jere Long, M. Brown and Peter Horan.

PUNCH WHEEL TIRES WITH PINS The Small Boy Makes Lots of Trouble For the Wheelmen.

For some time past wheelmen have been bothered by slow leaks in the tires of their machines. In most every instance it has been due to pins sticking in the tires. It would be a difficult matter to pick up a pin while pedaling along the street, and it is quite certain that the pins are put there by small boys just to see how it will work. It is a source of revenue to the repair shop but very costly to the cyclist.

ENGINE AND "FLAT" MET WITH A CRASH

ST. PAUL LOCOMOTIVE'S FRONT STOVE IN TODAY.

Luckily Neither Engineer Lewis Nor Fireman Slightam Were Injured—Boy Run Down By a Train Near Beloit—Chicago Engines Sent to Janesville For Repairs.

Eugene John Lewis of Madison, and Fireman Charles Slightam of this city, had a narrow escape from being injured at Ellis Junction this morning, and when they hauled the St. Paul passenger into Janesville, engine 304 showed the effects of the accident. The train had gotten under good headway when a loaded flat car was seen standing on the main track. Every effort was made to stop the train, but although the speed was checked, Engineer Lewis was unable to bring the train to a full stop, and a crash followed. Neither the engineer or fireman was hurt but when the engine arrived here this morning the headlight was missing and the front part more or less damaged. The car was supposed to be on a sidetrack but had either rolled out on the main line or been carelessly left there by the night crew.

Train Ran a Boy Down. Nothing but Providence and a keen-eyed engineer saved the life of a Beloit boy last night, and as it was, the lad was seriously hurt. Engineer Charles Sherwood, of this city, was in the cab and Conductor Ballard was looking after the tickets, when the Chicago & Northwestern "Janesville passenger" pulled out for the Line City last evening. The train was just passing the Beloit Brass Works, at a good rate of speed when Engineer Sherwood saw a boy walking between the rails. The air brakes were at once applied and the engineer blew the whistle but it was too late. The men in the cab expected to see the lad torn to pieces but instead of that he was thrown to one side by the pilot and when the crew hurried back they found that he had escaped with a broken arm, although internal injuries are also feared.

The St. Paul's Complete Shops. For some time past the St. Paul Company has been enlarging and refitting their repair shops in this city, until it is now considered the best shop on the Mineral Point division and its branches. The Chicago officials have just sent engine 406 from the Windy City yards to this city, to be remodeled and refitted throughout.

J. C. Fox is the general foreman of the shops, and under his efficient management they are constantly growing and improving.

CITY PROPERTY
"He that hath a house to put his head in, has a good head piece."

That is what the jester said to King Lear after he had divided his domain between his daughters, when they, seeming to be void of all gratitude, turned their poor old father out into the cold world.

Surely the daughters of Janesville would not be guilty of such an act even if their fathers were to put the titles to houses in their names.

Look at our houses, take the title to yourself, and we would suggest that as an investment or saving fund for wife, daughters, or any one, we think our plan of selling houses affords an excellent chance of earning interest on the money you have invested, together with the Saving Fund feature of being able to pay something on account from time to time.

No trouble to talk over all plans with any one.

A Profitable Combination.

The drummer stepped into a store in a western town where the proprietor had a stock of guns and musical instruments.

"Isn't this a rather queer combination?" he asked.

"There's money in it for me," replied the proprietor.

"I don't see how."

"That's because you ain't up to our ways."

"Well, put me up."

"It's this way," explained the proprietor. "I sell a man a cornet, or banjo, or fiddle, or something like that, and by the time he has practiced a week his neighbor comes in and buys a shotgun or revolver, or something like that, and I get a profit going and comin', see?"

Protection That Protects.

Brownston—Yes, sir. My house has been robbed three times, and I live right in the middle of the city, too, with a policeman at every corner. I should think you'd be scared half to death living as you do, way off in the country.

Mr. Suburb—My house is never interfered with. There hasn't been a burglar in our section for years.

"Eh! Have you policemen there?"

"No. Nothing but guns."—N. Y. Weekly.

Baby's Masterpiece.

"I'm sure that baby is going to be a great artist," said the fond mother.

"Isn't he rather young to evince any talent?"

"That's just where he shows his genius. I left him where he could get some red ink on his fingers, and before I knew what he was doing he had decorated the library wall with one of the loveliest magazine posters you ever saw."—Washington Star.

Speculation in His Eye.

Benevolent Individual—Yes, sir, I hold that when a man makes a little extra money his first duty is to make his wife a present of a handsome dress.

Ordinary Individual—You are a philosopher, I presume?

Benevolent Individual—No, I'm a dry goods merchant.—Alex Sweet, in Texas Sittings.

Mrs. Lakeside (solicitously)—Well, my dear, are you getting on all right?

Mrs. Getthere (enthusiastic worker at church fair)—Now, Mr. Slimpurse, you really must take a chance in this beautiful pipe; you really must. Just think, the pipe is worth twenty dollars, and the chances are only one dollar each.

Mr. Slimpurse (edging off)—Very sorry, madam, but I don't smoke.

Mrs. Getthere—Oh, but you can learn, you know.

Mr. Slimpurse—Tobacco does not agree with me. I would have no earthly use for a pipe.

Mrs. Getthere (struck with a bright idea)—Well, there isn't the slightest probability of your drawing it, you know.—N. Y. Weekly.

A TRUE STORY.

Last month I cleared, after paying all expenses, \$235.38; the month before \$186.86 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy to sell it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co., Station O, Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience in the local papers. A NEW DISCOVERY BY THE SHAKERS.

For more than a hundred years the Mount Lebanon Shakers have studied the cultivation of medicinal plants and sought to extract from them their healing essences. Their labor has not been spent in vain. They have made a discovery that will prove a blessing to mankind. It consists of a cordial that causes immediate relief in cases of indigestion. The importance of this discovery will be apparent when we realize that nearly nine-tenths of our sufferings are caused by dyspepsia or indigestion. Nearly every person you meet has this digestive trouble in some of its varied forms—sick headache, distress after eating, pain and fullness in the chest after eating, palpitation of the heart, etc., are but symptoms of indigestion. To relieve these sufferings has been the study of the Shakers, and they have succeeded. The reason the Shaker Digestive Cordial has such an immediate and salutary effect is that it causes the food eaten to be digested, for it is undigested food that causes the distress. The cordial causes the food to be digested before there is time for it to ferment and sour on the stomach. When the food is so digested it gives strength and vigor to the feeble body, makes one feel bright and cheerful, and makes one gain in flesh.

The Digestive Cordial is so prompt in its action that the very first dose will have a perceptibly favorable result. It gives immediate relief.

In order to prove this statement, small trial bottles placed in the drugists' hands can be obtained for 10c. This trial bottle will have a decided beneficial effect and will satisfy any one that the cordial is adapted to his case. After a trial give praise to the Shakers of Mount Lebanon, N. Y.

A gentleman ordered a suit yesterday who said, "they tell me you will not be here very long and I thought I would get my order in before you left town, as I know you are selling Clothes Cheaper than the other tailors and making better fits." The Smart Aleck who is giving this kind of information concerning our movements, I know and shall probably be able to pay him better later on, but at present I wish to thank him kindly for the valuable advertising he is giving me gratis.

No Settlement with Rebels.

Havana, May 10.—Inquiries in official circles regarding the report current in the United States that Captain General Martinez de Campos has reached a settlement with the rebel leaders and that the insurrection is practically over, show that the Captain General has not reached a settlement with the rebels and that he will not do so. He will depend upon force of arms to put down the rebellion and restore peace to Cuba.
